

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the interview with the Examiners.

The Examiners' highly beneficial cooperation during the interview has been gratefully acknowledged.

In connection with the interview it is respectfully submitted that the terms used in the formula, in particular the yoke height and the tolerance value, are explained in the specification.

With the present Amendment Claims 11-17 have been amended to clarify the method steps which constitute the novel features of the present invention, and Claim 19 has been amended as well to provide corresponding clarifications of the electrical machine.

It is believed that the claims currently on file should be considered as patentably distinguishing over the art and should be allowed.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawing be further amended or corrected in formal respects to put this case in condition for final allowance, then it is requested that such amendments or corrections be carried out by Examiner's Amendment and the case passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing the case to allowance, he or she is invited to telephone the undersigned at 1-631-549 4700.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Michael J. Striker', written over the printed name.

Michael J. Striker
